LOCOMOTIVES

Item 092024/1

From the Brian Clarke collection, this 'Adam' Motor Rail, 20/28hp, 2½ ton diesel locomotive, No 9978 of 1954, is fitted with original Dorman 2 DWD engine. This loco is in running order but requires completion of radiator restoration for which all required parts are with the loco - otherwise a very good, tidy example of this type of locomotive in near original condition.
